Education of the Spirit

‘Education of the Spirit’ A discussion with Rev Dr Philip Hughes, Principal Elisabeth Lenders and Rev Greg Beck on Sunday 17 June 2012 at 4.00pm in the Cato Centre. Please respond via email to kwc@kingswoodcollege.vic.edu.au so that we can get an indication of numbers for afternoon tea.

Rev Dr Philip Hughes
Chair of Council

From the Principal

Winter conjures images of hibernation, and a decline in activity; the transit of Venus, not due again on earth until 2117, reminds us that we are one small speck in a mighty and eternal canvas of space and time.

Yes it is winter. No, Kingswood College is not in hibernation!

Those privileged to have seen what in my opinion was the best production of ‘The Crucible’ last week, have been left with many memories. Having taught the play many times in my English and Literature teaching days, I know that the themes are enduring ones, including: honesty, loyalty, peer pressure, fear, and questions about our place in the universe. These are worthy notions with which to wrestle, and our cast and crew not only conquered the many challenges of such a demanding script, but provided us with challenges to think about our own values, and how we would behave in times of uncertainty and stress. My great thanks to Judy Taylor, Director, and her band of staff who provided wonderful opportunities for students. And hearty congratulations to the cast and crew for creating something so impressive from words on a page.

The transit of Venus following World Environment Day is symbolic I think. We need to consider the legacy our way of life bequeaths to those who follow. Staff members Howard Elston and Jirrah Macarthur arranged for a suite of electric vehicles to be on show for students at lunchtime on Tuesday, and in spite of the rain, there was great excitement! Looking at the possibilities and challenges of renewable energy was really engaging, and Kingswood College students are grappling with the issues associated with global warming, environmental sustainability, and our personal and collective capacity to make a difference.

There is a strong sense of focus in the Senior School at present, and I called together our Year 12 students on Thursday at morning tea to let them know how pleased we are with their approach during first semester. They warmly welcomed our Year 11 group into the Senior School space, settled to a positive rhythm of work and play, put together an excellent Formal in April, and now approach mid-year exams – some of which are external, and others designed to train them for their final papers in November. While it is ever so that some students are more diligent than others, the feeling from staff about the group and their approach and application is very positive, and this is great news.
Finally do remember that on Sunday 17 June at 4.00pm there will be a gathering of Kingswood College community members interested in the creation of a Centre for Purposeful Life, or as some refer to the concept, a Spirit Centre. This represents an exciting opportunity in our development and your perspective would be very much valued.

Meantime, best wishes for a relaxing long weekend. And to those supporting our students from Years 10 - 12 who are about to begin their semester examinations, all the very best.

**Why choose Kingswood College Melbourne?**

There is a lot to love about Kingswood College, and we’d like everyone to have the opportunity of finding out the benefits of a Kingswood College education. Can I please ask that you view the link below and spread the word to your friends and family to watch our fabulous new promotional film, made by our very own Kingswood College students.

Thank you to everyone involved in the making of this film, particularly Ashleigh Podolak in Year 9 (who has a budding acting career ahead of her), the Year 11 Multimedia students and Peter Alderson Media Coordinator.

Please view it, and email the link to others in your social and personal networks to consider a Kingswood College education.

*Lynelle Dudman*

Director of Community Engagement
Wyvernians Football Club

The possibility of a Wyvernians Football Club is in the pipeline. The Wyvernian Association was recently approached by three Wyvernians with a proposal outlining the formation of an 'old boys' football club to be affiliated with the Victorian Amateur Football Association (VAFA).

The initiative received unanimous support from the Wyvernian Association. The Association saw the value in a sporting club that could foster and strengthen the connection and ties with Kingswood College and its past-students, families and friends.

In order for this initiative to move forward, we are now calling for interest from individuals within the Kingswood College community to assist in turning this idea into a reality.

Whilst all assistance is welcome and appreciated, in this initial phase we have a specific requirement for an individual(s) with an accounting or similar background to assist in assessing whether the notion of establishing such a team is financially attainable.

In the meantime we would also like to hear from individuals willing to volunteer their time and business services to assist in bringing this club to life.

Please 'Like' the Official Wyvernians Football Club Facebook page to stay updated www.facebook.com/oldwyverniansfootballclub. Interested parties should contact Callum Mackay (Class of 2007) in the first instance by email callum.mackay@live.com.au or Lynelle Dudman Director of Community Engagement.

World Environment Day

On Tuesday 5 June to coincide with World Environment Day Kingswood College in conjunction with the Department of Transport held an event showcasing four Electric Vehicles (EVs) in the Middle School courtyard.

The Middle School courtyard was turned into a mini ‘car dealership’ with four Electric Vehicles on display including the Mitsubishi i-Miev, Nissan Leaf, Honda Hybrid and the Toyota Prius. Students acting as ‘salespeople’ for the vehicles demonstrated the features of each vehicle, whilst other students were perusing and assessing the vehicles as potential vehicle buyers.

Educating the next generation of drivers about sustainable transport options was a wonderful way of embracing World Environment Day.

The program was developed by the Victorian Department of Transport with the support of the RACV and CERES Community Environment Park.

Howard Elston
Year 5 Teacher & Sustainability Coordinator
International students get a taste for AFL

Last Saturday a large group of students and staff from Kingswood College were invited to the Carlton v Melbourne game at the MCG to help celebrate the AFL’s multicultural round. More than 20 international students, mainly from China, were experiencing AFL for the first time.

Students were invited as guests of the Carlton Football Club as part of their ongoing commitment to developing the game in Melbourne’s international communities.

The students were amazed at how physical the game was and were captivated by the crowd’s involvement. A highlight for the students was the traditional Australian football experience of eating a meat pie with sauce at the half-time break on a cold Melbourne afternoon at the ‘G’.

Elisabeth Lenders Principal Kingswood College commented ‘AFL is part of Melbourne’s DNA, and taking our international students along to the Carlton match was a fantastic cultural experience for them and we are delighted to participate in Carlton’s community activities.’

This initiative grew out of the Carlton Football Club’s involvement with the Chinese community in Box Hill as part of the Chinese New Year Celebrations earlier in 2012. The Club is also running a multicultural football clinic in July at Kingswood College as part of their community outreach program.

Yuta Kobayashi Fan Development and Community Manager at the Carlton Football Club said ‘he was delighted with the response from the students at Kingswood College and is looking forward to growing the partnership, running the football clinic in July and seeing the College participate in the Multicultural Cup.’

Liam King
Deputy Principal Learning & Teaching
Chaplain’s Corner

Don’t Worry Be Happy

I hate to hear that phrase. It doesn’t work. She’ll be right, doesn’t help either. I believe that the body has a certain amount of energy. When you are anxious, a lot of that energy goes into worrying: precious energy that could be used for something more enlightening like study and exam preparation.

The Bible is full of many words that speak about worry. In Matthew’s gospel section we hear – don’t worry, God looks after the lilies of the field and if he cares about them, surely God will look after you. But usually those words are intended for things that happen to you that the individual can do nothing about. Whenever the disciples of Jesus were concerned, worried, or downright fearful, Jesus said to trust God, but that was always after he knew that they were prepared for the task. If you do prepare well for your tests, SACs, etc. and still worry, listen to this story told by the Buddha.

A man was being chased by a tiger in the jungle. He came to a precipice that he could not jump. Out of the corner of his eye he saw the tiger approach but suddenly noticed a vine hanging over the side of the cliff. He jumped on the vine and started to climb down, the tiger snarling just above his head ‘safe’. He looked down and saw a pride of lions circling below him licking their hungry jaws as they jumped and tried to grab his feet. The vine began to tear under his weight. What did he do? Next to him on that vine was a big red juicy berry. He picked it, placed it slowly into his mouth and savoured its flavour to the fullest.

May God bless each of you during semester exams.

Astronomy at Kingswood College

Many students were able to view part of Venus transiting the sun on Wednesday 6 June before recess. There has been much written in the media so I will not explain the physics of this celestial event. Suffice to say that Venus crossed between us and the Sun allowing us to see it cross a portion of the Sun.

The science lab technicians set up the telescope and a screen onto which we could project the Sun's image. We were able to see the large dot of Venus and seven sunspots. Many classes from the Early Learning Centre through to our Senior School students were able to see it before the skies clouded over again.

My thanks to all who assisted (Marian Ashton, Tracey Spiel, Iain Murphy, Jirrah MacArthur especially) and a special thank you to the Huggins Family who donated the beautiful blue 6” reflector telescope last year.

Rev Greg Beck
Chaplain
Kingswood College House Athletics Carnival

Tuesday March 20 at Doncaster Athletics Track

The Athletics Carnival is always a highlight of the House competition calendar. It can be intense, with numerous events happening all at the same time. It’s a tough job for the leaders to organise and rely on the teamwork of the House to ensure all events have competitors. This year we had winners who have already claimed athletics trophies, and some new athletes who will now have their name forever in the history books. The age level winners were:

<table>
<thead>
<tr>
<th>Girls</th>
<th>Boys</th>
</tr>
</thead>
<tbody>
<tr>
<td>Under 13</td>
<td>Ellie Cleland</td>
</tr>
<tr>
<td>Under 14</td>
<td>Katherine Smith</td>
</tr>
<tr>
<td>Under 15</td>
<td>Kathryn Brooks</td>
</tr>
<tr>
<td>Under 16</td>
<td>Emma Glasson</td>
</tr>
<tr>
<td>Open</td>
<td>Emma Waters</td>
</tr>
</tbody>
</table>

Gwynton House managed their second sports carnival win for 2012 with victory over Walker House by just 32 points. Congratulations Gwynton House!

1st Gwynton  2nd Walker  3rd Brunning  4th New

Ahhhh, the taste of Victory!

EISM Division 3 Athletics Carnival

Thursday 8 March at Lakeside Stadium

It was great to see large turnouts at athletics training for the weeks leading up to the Athletics Carnival - the offer of a free athletics t-shirt worked a treat in enticing students to come and train! The training sessions were helpful for everyone and showed in the Carnival with almost all our athletes placing very high or winning their event.

We had some great results on the day and won the Open Boys Team Award. The biggest surprise to us was the announcement of Kingswood College being the overall winners of the Division 3 EISM Athletics Carnival, demonstrating the consistently high quality of all our athletes as we only won one individual age group.

This was the first Athletics Carnival win the College has had since 2005 which made it all the more exciting. Here is a summary of those who took home the ribbons:

U13s       H. Sugden 2nd, E. Cleland 2nd, T. Huggins 3rd,

U14s       Harry O’Brien 2x1st & 2nd, M. Mitchell 2 x 02nd, K. Smith 2 x 1st and 2nd and 3rd, L. McPhail 2nd, D. Hudson-Molland 3rd, Boys 4x100m 2nd
Kingswood College News
Term 2 Issue 4, 7 June 2012

U15s  K.Brooks 2 x 2nd, P.Wells 2nd, T.Habal 3rd, T.Pateras 3 x 2nd, L.Beyer, 3rd, L. Irvine 2nd, E. Leurs 1st & 2nd, J. Smith 1st, T. Purnell 1st, Girls 4 x 100m 2nd, Boys 4 x 100m 1st

U16s  J. Stosic 1st & 2nd, T. Wightman 2nd, E. Glasson 3x1st & 3rd, D. Calleja 2nd, K. Frean 1st & 3rd, D. Cady 2nd

Another season of Athletics has been completed with three successful carnivals in Term One and Two.

EISM Athletics Champions

Monday 14 March at Lakeside Stadium

Typical Melbourne weather was present for the Champions carnival, one minute the sun was shining, the next it was raining. These conditions made for a challenging atmosphere for all athletes. Many of our athletes competed to their personal bests, with some standout results being Harry O’Brien who came second in the Long and Triple Jumps, Katherine Smith silver in the Shot Put and Ellie Cleland who managed very gutsy runs to finish third in both the gruelling 800 and 400 metre runs. Kathryn Brooks was Kingswood College’s other medal winner, giving away plenty of kilograms she still managed third in her least preferred throwing event, the Shot Put.

Our relays teams both performed respectably, with some great baton changes from all their training. The Open Boys ran a near perfect race against strong competitors in their final school Athletics race. Well done to all competitors and thank you to the supportive parents and friends.

Brandon Bird
Sports Captain
Sustainability News

As part of the Learning Matters program in the Senior School students attended a session run by Jirrah MacArthur. The students’ concepts of energy use were challenged when examining objective scientific measurements of energy use in the developed world. Students completed a pre-survey so that the cohort’s conceptions were up for comparison against the research. The results were counter-intuitive, as many common myth-conceptions were highlighted; for example the net benefit of unplugging your phone charger is trivial, and that energy consumption is directly linked to income, not spending patterns.

The texts from which the data was drawn were *Australia Sustainable Energy – by the numbers*, by Dr Peter Seligman, and *Sustainable Energy – without the hot air*, by Dr David C. McKay. Both books are freely available on the internet.

Two students wrote short responses to this component of the Learning Matters Program.

‘Listening to Mr MacArthur’s session I was amazed to learn the skewed nature of my perceptions. In an engaging fashion that left me enlightened yet slightly sceptical, I was informed that it was the control and accumulation of wealth that had the greatest impact on energy usage. To make a large gesture that will benefit the environment, rather than spending money on solar panels or hybrid cars, it is more sustainable to control less money. I found it both ironic and frustrating that the most effective method is also the hardest. It was also interesting to note how nobody was sure of the accuracy of their opinions, demonstrating the need for this information.’

Einiah Cowie-Kent

‘Last week in Learning Matters, Mr MacArthur made an eye-opening presentation about our ecological footprint. We’ve all heard about sustainability before, with Kingswood College being a five-star sustainable school. We’re taught to save water, to recycle, to turn things off, and to moderate our thermostats. In Junior School we learn about composting, and in Middle School we study renewable energy, and the College even has its own wind turbine and solar photovoltaic systems. Amongst other questions, Mr MacArthur asked us what we thought was the most effective way of reducing energy use in the home. Was it...

a) Moderating our thermostat by one degree over a year?

b) Showering for one minute less every day for a year?

c) Unplugging your phone charger when not in use?

d) Buying one less present for oneself (eg. CD, iPod, etc)?

Responses were mixed as everyone hesitated and whispered. To the surprise of many of us, the answer was, in fact, (d). Mr MacArthur went on to explain that discretionary spending is by far the most energy intensive activity in our lives. I found it amazing, yet profoundly fitting, that it is the luxuries we buy, the money we spend on making life that little bit better, that is most damaging to the environment. When we earn money, the companies we invest and spend with are at liberty to use that money in ways as unsustainable as they wish. The upshot? To embrace global consciousness, you must work less and buy less.’

Sam Curtis

Howard Elston and Jirrah MacArthur, Sustainability Team
SEEK in the Junior School

Frozen land as far as the human eye can see. Gentle cracks slither across the glassy plains like slithering snakes. Sun rays are seeping through the icy leaves of the tall pines. Pine cones are scattered across the ground.

The sound of little birds fills my ears as if to tell me, ‘I’ve woken, come and join me in my melody!’

Skaters dance across the frozen lake, gliding in a perfectly synchronized pattern. The occasional slip creates cracks that branch out like the anchor roots of a weakling pine.

A kindred flock of ducks soar across the infinite sweep of pale blue sky. Their sleek, gloomy brown feathers flap against their small body and pull them back with a forceful tug.

The faint barking sound of a dog fills my ears as I stare helplessly at the flock.

The sun, getting higher by the minute, affects my eyes and singes my scalp.

That is when I realise, this is paradise, and that I should have put sunscreen on when mum told me to!

Talana Kitchen

SEEK Mathematics

Our Kingswood College Junior School Mathematics team completed their first test last week in the Australasian Problem Solving Mathematical Olympiads.

Our six Year 6 students all attained perfect scores!

Congratulations to Reuben Crawford-Rust, Edward Hanrahan, Samuel Moss, Tim O’Malley, Riley Stollery and Steven Zhou.

The Year five trainees averaged four out of five. This was a great start to their Mathematical Olympiads.

Congratulations to Indiah Clarke-Jacobs, Mia Harold, Ellora Kelly, Talana Kitchen, Hiruni Sirimanne.

Joan James
Junior School SEEK Coordinator
HPV Wine Drive

After coming a very successful fourth last year in the RACV Energy Breakthrough 24 hour race, the HPV Team are once again fundraising for our new race car, currently under construction.

With a more aerodynamic body-shell and more efficient chassis we aim to go even faster this year. Our team is already in training and we have made good progress in recent months. Our builders have learned to design, fabricate and weld and we have a real focus on accuracy and precision in all that we do. Your support for the team assists us to buy specialised composite materials necessary for reducing weight and improving efficiency. The wines we have been sourcing through Prospect Wines are from all over Australia as excess stock, bottled up and labelled for us, allowing a decent percentage profit to go back into our Project. Our students often go on to specialised automotive University engineering courses and surprise many with their expert knowledge in vehicle design and race management. We greatly appreciate the long standing support from many of those in the Kingswood Community, and ask once again that you consider buying generous quantities of wine to support this excellent endeavour. Order forms can be downloaded from our website http://www.kingswoodcollege.vic.edu.au/page/HPVFundraising or there is a form at the end of this newsletter for your convenience.

Forms are required to be in by Friday 15 June 2012 so we can have the wine delivered before the semester break. Please hand in forms to the relevant school secretaries prior to this date. Thanks for supporting the Human Powered Vehicle Team.

Andrew Robertson and Tracey Spiel
HPV Team Kingswood

Parents and Friends Association

The Parents and Friends Association (PFA) members are very appreciative to the Kingswood College Leadership team for arranging for Robyn Treyvaud to speak at our Annual General Meeting. Over 40 parents and staff attended to hear Robyn share her expertise about the levels of safety awareness and the behaviours practiced by most young people when engaging in the cyberworld. Robyn also spoke about the role parents need to play in supporting young people to use digital media safely and to better understand the relationship young people have with the cyberworld and its tools.

Robyn had some handouts regarding specific strategies for establishing a media agreement with different age groups, Kinder -Year 5; Grades 6 - 8; and teens in high school. These can be downloaded from www.commonsensemedia.org Additional information can be found at the site that Robyn founded www.cybersafekids.com.au
We are pleased to welcome some newcomers to the PFA Executive.

The following team was elected at the Annual General Meeting on 29 May 2012:

President                                               Tess Brooks
Vice-President (May-Dec 2012)                Sally Dent
Secretary                                              Janice Keynton
Treasurer                                             Lyn McDonald
Communications Coordinator   Tracey Seignior
Social Coordinator Junior School       Carol Lerk/Kerrie Jacobs
                                      Middle/Senior School      Sue Power
Book Exchange Coordinator               Carolyn Pethick

Appointed positions:
Casserole Club Coordinator   Amanda Curtis/Melissa Stollery
Promotions Officer     Leigh Cady
Fundraising Coordinators    Andrea Crane/Melissa Schneider

Subsequent to the official meeting Suzanne Moss offered to complete the PFA year as Vice-President in 2013 (January – May). The new committee will meet soon and already some fresh ideas are being put forward for the coming year.

The next meeting on Tuesday 26 June will run as a forum with the opportunity for existing and new members to come along and share their thoughts about what is working well and new ideas and activities that could be considered. After the business meeting we will break into the four groups listed below, and people can contribute to whichever group is of major interest (or swap between groups):

- Social activities
- Fundraising events
- Speaker suggestions
- Communication ideas

All parents are welcome to come along and participate.

Other upcoming opportunities for parent input:

- Sunday 17 June, Cato Centre 4.00pm, ‘Education for the Spirit’ afternoon with Rev Dr Phillip Hughes
- Wednesday 27 June, Middle School MPA 7.30pm, Year 7 Parent iPad Forum

Last week the PFA supported both ‘The Crucible’ and the Human Powered Vehicle (HPV) through the production refreshments. Working alongside staff from the Tuckshop we offered tea/coffee/soft drinks/water and snacks as well as wine and cheese. The Tuckshop sales were good and the wine and cheese, although not a big fundraiser for PFA, offers a service and the opportunity for parents to try the HPV wine which is once again a major fundraiser for the HPV project. By purchasing this wine we also contribute to that project. Congratulations to all those involved with ‘The Crucible’ it was a very
polished acting, choreographic and backstage performance. Thanks to all the volunteers from Friday afternoon set up, assisting on stalls Friday and Saturday, through to Saturday night pack up involving re-setting up the classroom in the Science Lounge.

The Years 11 and 12 dinner was on Tuesday – once again an opportunity for families to catch up over a relaxed dinner prepared by our Hospitality students and staff. A small gathering attended and it was most enjoyable. Once again thanks to the staff that stayed on after hours to join in.

Upcoming events:

- Christmas in July Shopping Tour is planned for Saturday 21 July. You do not have to be a big shopper to enjoy the day - it is an enjoyable day with other parents chatting, laughing, purchasing (if you like), lunching, tasting, winning prizes etc. Enquiries to Jo Farrell on 0403 445987
- Term 4 Family Golf Day – put it in your diary for Sunday 21 October - a relaxed afternoon of ‘Ambrose’ golf which allows for players of all levels (beginner to experienced) to compete in a friendly competition. Suitable for upper primary to Year 12 and beyond!

Woolworths – Earn & Learn Promotion

Simply start collecting stickers at the checkout of your local Woolworths supermarket (self-service too) until July 22 to place on your child’s sticker card. There’ll be one sticker for every $10.00 spent. Once completed, simply drop the sticker card into the collection box, either here in the Junior School or at your local Woolworths.

Coles – Sports for Schools Promotion

Don’t forget to be ready from Tuesday 12 June to receive your Coles Sports for Schools vouchers once again. Kingswood College has again registered for this promotion and we look forward to our families assisting us when they visit Coles Supermarkets and drop in their vouchers. Last year we collected over 23,000 vouchers and received new balls, netball bibs and equipment here in the Junior School to assist with PMP activities.

Let’s keep us the good work and try for 25,000 this year!
Order Form to Prospect Wines ~ Please accept my order for the following KINGSWOOD HPV 2012 wines.

I declare that I am over 18 years of age and agree with the following conditions:
1. That I am placing an order on Frivilla Pty Ltd trading as Prospect Wines Blackburn, holder of Victorian Packaged Liquor Licence No 32052079.
2. No obligation to sell or supply the goods will arise until the order is received and accepted at the licensed premises.
3. The applicable law for transactions for the purchase of wine from Prospect Wines is the law of the State of Victoria.
4. By placing an order with Prospect wines I accept that the ownership of and risk to the goods passes to the customer upon payment for the goods and when the goods have been picked up by the customer from Prospect Wines, or delivered to the nominated address.

Grand Total

KINGSWOOD HPV
FUNDRAISER 2012
Your support for this project is greatly appreciated.
All profits generated are returned directly into building our vehicles and racing them. Purchasing even two bottles will help us to buy materials and much needed spare parts.

PLEASE RETURN TO SCHOOL SECRETARIES
OR TRACEY SPIEL (Science Building) by …………………………………..

1. MARGARET RIVER SAUVIGNON BLANC 2011
This is typical Margaret River with a delightful ripe fruity aroma, delicate fresh flavours and a zesty crisp dry finish. Serve chilled with seafood.

2. BAROSSA VALLEY CHARDONNAY 2010
The fruit was harvested in the cool of the night to preserve freshness. The result is a soft and round style with flavours of peach, tropical fruit and a zesty refreshing finish. Best enjoyed young.

3. MARLBOROUGH SAUVIGNON BLANC 2011
Bright, energetic and alive! This wine has all the aromas you expect from a classy Marlborough with a delightful balance of cut grass and fresh tropical fruit. It has delicate berry flavours and a crisp well balanced dry finish.

4. BAROSSA VALLEY SHIRAZ 2009
This Barossa Shiraz has a deep rich colour, with a nose of sweet ripe blackcurrant fruit, flavours of ripe berry fruit and spice, and lingering mouth filling tannins. A young wine with excellent cellaring potential.

5. South Australian CABERNET SAUVIGNON 2011
This is the ultimate party red; ripe plum and cherry fruit aromas and a palate showing juicy plum and blackberry flavours supported with fine supple oak tannins.

6. GRIFFITH MERLOT CABERNET 2011
Merlot has lots of initial fruit flavours with a soft velvet finish and blends well with the plummy blackcurrant more full flavoured Cabernet Sauvignon. A soft easy drinking style.

7. McLaren Vale Sparkling BRUT
Made from Chardonnay grown in McLaren Vale, this sparkling wine has lively fruit flavours with a crisp dry finish.

8. PREMIUM SPARKLING SHIRAZ
This is a luscious earthy full bodied sparkling Shiraz that manages to balance rich fruit flavours and light sweetness together with a soft finish. Lightly chill and drink with duck or turkey.
School Holiday Workshops

Computer Animation & Games Design

Dates: Wed 4th – Fri 5th July OR Wed 11th – Fri 13th July. Ages: 6-12 Years of age (graded activities).

Advanced Option: If you have been before and would like our advanced option please let our office know.

Classes begin at 9am, with a finish time of 3.30pm ($299 total cost) or 5.00pm ($329 total cost).

Use amazing software to learn the techniques behind rigging, key frames, character manipulation and more! Be challenged to invent your own computer games with rules and strategies!

Claymation & Stop Frame Animation

Dates: Wed 11th – Fri 13th July. Ages: 8-13 Years of age (graded activities).

Classes begin at 9am, with a finish time of 5.00pm only ($339 total cost).

Let your imagination run wild as you make awesome clay models then bring them to life using a video time sequence to create your own claymation movies!

Future Maths & Games Design

Classes begin at 9am, with a finish time of 5.00pm only ($329 total cost).

Take part in unique maths and gaming challenges that require you to think outside the square and solve fascinating investigative problems!

Engineering & Technology

Classes begin at 9am, with a finish time of 5.00pm only ($329 total cost).

With expert tutors and industry level projects, you will tackle architectural and mechanical problems. Roller coaster design, bridge building, CAD challenges and more in this exciting course.

Fashion, Wearable Arts & Photography

Dates: Wed 11th – Fri 13th July. Ages: 8-14 Years of age (graded activities).

Classes begin at 9am, with a finish time of 5.00pm only ($339 total cost).

Develop your skills in conceptualising new concepts with mood boards, fashion drawings and the use of unique materials. Discover what it takes to be a photographic director.

NEW! Chemistry, Physics & Rocket Science

Dates: Wed 11th – Fri 13th July. Ages: 6-12 Years of age (graded activities).

Classes begin at 9am, with a finish time of 3.30pm ($299 total cost) or 5.00pm ($329 total cost).

Learn all about the forces of gravity, friction, and momentum as well as Newton’s laws of motion. Take part in fun experiments and build and test your own rockets!

Parents and Friends Association Forum

We want to hear from you...

Come along and have your say about what you’d like the Parents and Friends Association to be doing in 2012-2013 and beyond.

Your input, ideas and thoughts are welcome and will help us to ensure what we’re doing is relevant in assisting the growth of Kingswood College.

Tuesday 26 June, Cato Centre
7.30pm Business meeting
8.00pm Forum
